

ATTENTION NAPA TRACS® USERS:

Books

Spending too much
time on your books
and not enough on
building new business?

VS

Bucks.

5

important questions for

users:

- 1 **Are you using QuickBooks® or other popular accounting software?**
- 2 **Are you able to keep your books current in just a few minutes per day?**
- 3 **Can you transfer your TRACS sales data quickly and easily into your accounting software?**
- 4 **Can you reconcile daily and make adjustments to your cash drawer from home or a remote office?**
- 5 **Do you trust your books to tell you your financial condition at any time?**

If updating your TRACS sales data to your accounting program is keeping you from building new business, we have a time-saving solution that simplifies and trims your bookkeeping from hours to just minutes.

The Accounting Link is an auditing tool developed and supported by automotive accountants who know your business. **The Accounting Link** "connects" your computer-based accounting program to your TRACS system for quick, easy transfer of sales data. The result? You can pull financials anytime you want them... and your bookkeeping time shrinks to just minutes per day.

Want to know more? Call or email today for complete information about the hours you'll save when you automate your accounting with **The Accounting Link**.

Now there's a "bridge" that connects TRACS to your accounting program...so you update your books in minutes, not hours.
